MELTEMI BESPOKE JOURNEYS · THESSALONIKI

Boutique travel agency designing private trips for clients from Canada and Australia.

- Private itineraries across Greece, Cyprus and Malta: 25 to 40 a year, usually 7 to 12 days long.
- Takes each client from the first call to the flight home: needs interview, written proposal, day-by-day itinerary, bookings.
- Books hotels, licensed guides, private drivers, yacht days, ferries and domestic flights for programmes with several stops.
- Writes the final trip book (contacts, transfer times, confirmations) and reconfirms every service a week before arrival.
- Records dietary needs and mobility limits, checks visa rules, and adds a café and taverna list for each stop.

24/7 On call during every trip as the clients' single contact with local suppliers.

FOR EXAMPLE

Milos: a gale kept the clients' catamaran in port. He moved them to the next morning's ferry, extended their room by one night and shifted their Athens dinner booking.

Kefalonia: a client lost her passport two days before departure. He booked a consulate appointment in Athens, changed her flight and kept the rest of the party on their original plan.

03 Planning the 18-day trip

October 2024 · himself and four colleagues

- The whole route from scratch: rail passes, hotels, a day plan for each city.
- Travel insurance and passport checks for the group; mobile data for every phone.
- Luggage sent ahead from Kanazawa to Nikko (takkyubin), booked in Japanese.
- Every hotel booked with free cancellation until three days before arrival.
- When a typhoon cancelled the trains north of Sendai, he moved the group to the next morning's service and one hotel night with it, and no stop was dropped.
